Wildlife and nature club with all its enthusiasm organized its first event, a monsoon nature trail to Sanjay Gandhi national park, where the students experienced the fun of discovering nature. The next event organized was ECOFRIENDLY friendships day, where eco-friendly friendship bands and greetings were sold and the proceeds of which will be donated. Moving on to the next event which was Tree Plantation to Ismail Yusuf College was the day, where the members planted around 75 plants. This was indeed a real contribution towards nature. An event organized for teachers on Teachers Day where we saw the other side of our teachers when the two events the Quiz Contest and 'Scrap The Crap' became a hit. The most awaited and exciting event of W.N.C., yes the trek to Keshav Shrusti! where students enjoyed activities like Rappelling, Rock-climbing, Free-fall, Riffle shooting and Treasure Hunt. Even though it was the last event but it had the memories which will be cherished lifelong.
