“You don’t take a photograph, you make it.” – Ansel Adams.

Photography, as a powerful medium of expression and communication, offers an infinite variety of perception, interpretation and execution. It is more than a medium for factual communication of ideas. It is a creative art. This venture was an attempt of Hobby Centre to promote creativity amongst the students. This proved to be a platform to showcase the hidden talent among our students. It gave students an opportunity to play with their creative expertise.

The theme given to students was NM@50 as our college is approaching the golden jubilee year. Registered students were given identity card and were allowed to explore every corner of the college to capture the best of our college.
