Students Forum

Activity Report December- 2015

The Students Forum conducted its last event, Reality Check on 7th December 2015. 14 contestants with diverse personalities participated in the event. It started with an introduction of all the participants. The contestants were divided into two teams for "The SF hotel task". Each team were given props to create a hotel scenario after which they had to welcome the guests in their own ways. The committee members played the role of guests.

Their job was to test the patience of all the participants. Participants had to fulfill all the demands of the guests without losing temper. It was a fun-filled task wherein both the participants and guests enjoyed to their heart's content. On the basis of the performance of the teams; the winner was decided accordingly. Winning team had to choose 3 people from among themselves who performed the best throughout, after which we had nominations.

Each player had to nominate one person whom they wanted to evict but to keep the event interesting, the highest voted contestant had a special right to evict one contestant from the 3 finalists. The 2 remaining finalists then had to perform and entertain the other contestants. The most entertaining participant, Malaika Grover won and got a cash prize of 750. The event was a great success.
