

ABCD

ABCD, Again Beach Cleaning Drive is Wildlife and Nature club's flagship event. After Ganesh Visarjan, due to ocean currents the broken idols are back onshore polluting the beach. So on the next day of Visarjan i.e. 16th August from 6AM to 10AM WNC along with RCNM went to the Juhu Beach for a cleaning drive. It was a very good experience for the participants. When asked, they said ' Beach cleaning was one of the simplest things that we could do to help nature'. We were around 30 people. RCNM had tied up with various NGOs and helped us a lot. It was a totally new experience for the FYJC members of WNC. ABCD is one of the most important projects of WNC.
