

THE UNABRIDGED ADVOCATE

The wildlife and nature club of NM junior college had its fourth event, The Unabridged Advocate on the 29th of September, 2016. 19 teams of 3 participated in the event. As the name suggests the event was based on the skills that a lawyer must possess. The theme of the event was the importance of an animal's life. The event consisted of three rounds. The first round was a quiz having questions based on Maths, logic and EVS. In the second round the participants had to speak on a given topic for about two minutes. The final round was the best part of our event. In the final round a mock trial was conducted between the two finalist team. In the mock trial the teams were given a case and WNC members were made witnesses. There were three parts of the trial, the opening statements, the closing statements and the cross questioning with the witnesses. It was a new experience for the finalists and the teams which were eliminated also had a fun and learning experience during the final round.
