TechBash:

• **Mobile hacking workshop & Quiz** -The first event th TechBash'12was conducted on Tuesday, 7 August, 2012. Quiz and workshop on mobile hacking were the key features of this event. A seminar on mobile hacking was conducted by Mr.Sachin Dedhia. He demonstrated different techniques and methods of hacking and discussed the safeguard against it. He emphasized on the software to be downloaded, cautioned us about different applications and also shared with us about various crimes. It was followed by quiz with innovative rounds. The second event of Techbash'12 held on 11 September, 2012, comprised of six events.

• **Computer Treasre Hunt**

- **Corel Draw Workshop:** The workshop was held by our very own committee member, Vignesh Sundaresan.
- **Music Mixing:** The participants were presented with a set of songs which they were supposed to mix using Virtual DJ software to create their very own song.
- **Design-O-Mania**
- **Blog Writing through Debate:** This event aimed at exploring not only the thinking skills of the participants, but also their ability to put their thoughts into words. It put their literary skills to test. It was a perfect opportunity for budding writers.
- **Photo Collage**
- **Counter Strike:** This event was conducted on 4 October, 2012 was one of the most popular gaming events.

Infogage:

• On the 11 December, 2012, an elimination round of **Maths Quiz** & the **Sudoku** competition were held. On the 14 December, 2012, Dr. M.N. Welling Pro-vice chancellor of NMIMS, spoke about an index developed by him well known as the **Welling's Index**, which used by researchers in the field of Home Science, Social Sciences and Education. The interactive seminar taught us a lot about mathematical modeling and the practical application of index numbers in real life. The session was followed by a workshop on **Vedic Maths** by Mr Dhaval Bathia, an NM alumnus and the ex-Joint Secretary of Computer Society. The seminar was thoroughly enjoyed by the students as they practically tried out various shortcuts of Vedic Maths. Our event concluded with the **Maths Quiz** Finale conducted by Gnanesh Mehta, a TYBCom student of NM & the Secretary of Computer Society in 2009-10. The quiz was interesting and fun-filled. It taught the students the tricks for solving Maths questions and preparing for competitive exams.
