Warm Greetings! It is with profound sense of humility and privilege that I reach out to all of you as the Principal of this prestigious institute. Autonomy has helped tremendously with upward mobility of NMCCE because we are able to keep pace with the dynamic environment, increase the skill & ability of students, ensure that community engagement is possible through innovative curricular, co-curricular & extracurricular activities, and move positively towards achieving our vision. Despite the challenges, we at NM have always made every effort to reach out to the students, and equipped them with 21st century skills of critical thinking, creativity, communication, and collaboration.

The year 2022-2023 will witness introduction of new programs like M.Com [Business Analytics], B.Com [Economics & Analytics] along with the existing programs like BCOM (HONS) B.M.S, B.A.F, B.F.M We have increased the number of credits for all UG programs from 120 to 132 & for Hons program to 148 credits according to UGC norms. There is a complete focus on application based and experiential learning with questions testing the students' comprehension, analysis and creativity. We have an extremely dedicated staff who are ready to go that extra mile to ensure that true value addition takes place in teaching -learning process and we are successful in maximizing the potential of our students who can assimilate higher order learning quickly. Academia Industry linkage was further strengthened through signing an MOU with Bombay Industry Association (BIA) having 1200 companies under its umbrella in providing internships to our students and Khadi and Village Industries Commission, wherein the students would be able to do internships and get involved in experiential learning.

The institution trains the students to rise from being "Dependent" to becoming "Dependable". The rich alumni in diverse fields like Chartered Accountancy, Administration, Politics, Entertainment and Sports are a testimony to this. The corporate and industry interactions where our alumni are actively involved not only provide hands-on experience but also help in placement of our students.

PROGRESSION RULES

1. A learner who has passed in all the courses (as per the rules of the Passing Standards) of Semester I and Semester II examinations of the first year of the program will be promoted to the second year of the program concerned. A learner who has passed in all the courses of Semester III and Semester IV examinations of the second year of the program will be promoted to the program concerned, of the third academic year. The grade cards of VI shall be kept on hold until the learner successfully passes each of the previous semesters and the final semester.
2. A learner who fails to pass in one or more courses in Semester I examination will be "allowed to keep terms"

(ATKT) and will be permitted to attend lectures and appear for the Semester end examination of Semester II. This means that the learners will be allowed to keep terms for both the semesters during the first year of the programme, irrespective of the number of failures in any number of courses of the first and second semesters of that respective year of the programme. This criterion will apply to the subsequent years of the program also.

3. Such failed learners will be allowed to appear at Semester end re-examination in all the 'failed courses' which will be conducted after declaration of the results of each semester end examination of that academic year. This re-examination will be held only once in an academic year and will be held immediately after declaration of the results of the semester concerned (i.e. odd semester reexamination after the results declaration of odd semester regular examination and even semester reexamination after the result declaration of even semester regular examinations).
4. The learner is required to pay the prescribed fees for re-examinations before the commencement of the respective examination. Online applications for re-examinations (ATKT) along with the payment of prescribed fee before the designated date is a pre-condition for appearance at a reexamination. A learner will not be allowed to appear for the re-examination in case s/he fails to submit the re-examination form online within the time frame stipulated by the college, through the student portal.
5. A learner who has failed to pass in **one or more subjects**, in the respective year of the program i.e. two semesters taken together, after the said re-examination (as mentioned in point no. 3 above) will not be permitted to apply for admission and to continue to the next year of the program. Such learners will be required to appear for the re- examination of the courses in which they have failed to pass. They will appear for the re-examination to be conducted for the regular learners of the subsequent batch. Such a learner will also have an option to take re-admission in the same year of the program, which he/she failed to pass subject to the validity of the program.
6. The same criteria regarding re-examination as mentioned above shall be applied to Semester III and Semester IV of the second year of the program and for Semester V and Semester VI of the third year of the program.

VALIDITY OF PROGRAMMES

The learners should fulfil the requirements of the respective programmes as per the validity period given in the table below, including academic break. **No readmission/ re-examination attempts will be granted after validity period is over.** In case the validity period expires, the learner will have to seek admission, on merit basis, from the first year of the Programme.
