**Rethinking the Connection Between Innovation, Education,
and Economic Growth for "Viksit Bharat"**

23rd April 2025

ABOUT THE COLLEGE

Shree Vile Parle Kelavani Mandal's Narsee Monjee College of Commerce and Economics (Autonomous) was established in 1964 under the ever progressive and widely reputed SVKM educational trust. The college is affiliated to University of Mumbai. The College offers EIGHT undergraduate value based programmes, THREE Postgraduate programmes and two Ph.D. Centres. The College is reaccredited with A grade with a CGPA of 3.42 by NAAC, and in 2019-20 was granted Autonomous status by the University Grants Commission (UGC) and University of Mumbai. On 29th June 2024 the college has been granted Empowered Autonomous Status for the period of 10 years from the academic year 2024-25 to 2033-34.

Through the years, the institute is proud to be recognized as one of the distinct commerce colleges in the country. Having featured consistently among the top ten best commerce colleges in the country and no.1 in Maharashtra and Mumbai, the college is undoubtedly one of the most sought-after colleges for the undergraduate and post graduate programs. Education World Private Autonomous Colleges Rankings 2023-24 has placed NM College as Rank 4 in India. NM College has conducted the World's Largest Financial Literacy Drive, teaching 12746+ students offline. In 1st July 2024 India Today ranked NM College as 7th among the top colleges in India, 7th among the top colleges with best placement record, 6th among the top college with best value for money and 1st among top five colleges in West region.

NM College has increased the number of credits for all UG programs from 120 to 132 & for the Honors program to 148 credits according to UGC norms. Management support enables College to appoint qualified and professional faculties preferably Ph. D., CA, MBA degree holders. The faculty is trained on continuous basis through Faculty Development Programs on curriculum designing, pedagogy including case study, evaluation and imparting quality education. The Training and Placement Cell arranges Soft Skill programs and training for interviews and facilitates the placement process throughout the year. Well renowned corporates from Accounting, Finance, Consultancy and Marketing sectors visit college for Campus placements. This year we have started a separate Skills Department, which conducts various activities related to skills development for students. The College has also initiated an array of value-added course and certificate courses through collaborations with professional institutions, industries and Government undertakings. NM College strives to employ the best educational and administrative practices thus creating skilled professionals, business leaders and social contributors, and responsible global citizens of the future.

About The Symposium

The One-Day Multidisciplinary National Level Symposium (Online) on **Rethinking the Connection Between Innovation, Education, and Economic Growth for 'Viksit Bharat'** aims to bring together thought leaders, policymakers, educators, innovators, and industry experts to explore the critical intersection of education, innovation, and economic development in India's pursuit of becoming a developed nation—'Viksit Bharat'. The event will focus on reimagining how these three pillars interact, with an emphasis on how transforming the education system and fostering a culture of innovation can catalyse sustainable economic growth in India.

As India aspires to transition towards a developed nation, the intricate relationship between innovation, education, and economic growth becomes increasingly vital. The concept of "Viksit Bharat," or Developed India, embodies the nation's ambition to leverage these elements to foster a sustainable and inclusive economic landscape. Rethinking this connection is essential for addressing contemporary challenges and unlocking the full potential of our human and intellectual resources.

Innovation serves as a cornerstone for economic growth, driving productivity, efficiency, and competitiveness. In a rapidly evolving global economy, fostering a culture of innovation is paramount. This involves not only technological advancements but also the development of new business models and practices that can adapt to changing market needs. By promoting innovation across various sectors, India can enhance its economic performance and ensure sustainable growth.

Rethinking the connection between innovation, education, and economic growth is not just an academic exercise; it is a strategic imperative for "Viksit Bharat." By fostering a culture of innovation, enhancing educational frameworks, and building robust ecosystems, India can unlock its potential for sustainable development. This vision requires the collaborative efforts of all stakeholders—government, industry, academia, and civil society—to create an environment where innovation flourishes and contributes to a prosperous future for all.

As we embark on this transformative journey, let us commit to harnessing the power of innovation and education as foundational pillars for a developed and inclusive India.

Objectives of the Symposium

The objective of the symposium is to provide a platform for dialogue and discussion on the following themes:

- 1. Innovative Educational Models:** How can we redesign the education system to foster creativity, critical thinking, and skills that drive innovation?
- 2. Linking Innovation to Economic Development:** Exploring the role of innovation in creating jobs, boosting productivity, and driving inclusive economic growth.
- 3. Bridging the Gap:** How can we bridge the gap between the education system and industry needs to ensure that India's workforce is ready for the challenges of the future?
- 4. Policy and Infrastructure:** Discussing the role of government policies and infrastructure in enabling a thriving ecosystem for innovation and economic growth.

The symposium will serve as a catalyst for a much-needed national conversation on how India can rethink the connection between education, innovation, and economic growth. It will offer a roadmap for aligning these pillars in a way that ensures India's sustainable development and its aspiration to become a 'Viksit Bharat'—a developed nation that leads globally in knowledge, innovation, and economic progress.

Subthemes:

1. Innovation-Driven Economic Growth for Viksit Bharat

- Innovation and economic development
- Research and Innovation Role in Nation Development
- Innovation and entrepreneurship - Emerging trends in innovation management and entrepreneurship development
- Invention and progress
- Innovation in strategy
- Role of Intellectual Property in Boosting Innovation

2. Building Innovation Ecosystems to Promote Development

- Innovation systems and policy for development in a changing world
- Redefining problems in changing context
- Techno-economic and socio-economic paradigm
- Ethical issues in innovation and development
- Innovation and Aesthetic Development
- Sustainability and Innovation for Industry 5.0
- Ethics in Innovation and Economic Growth
- Innovation and Entrepreneurship: Driving India's Transition to a Viksit Bharat

Subthemes:

3. Global Economic Integration and India's Role in Supply Chains

- Role of IKS for Viksit Bharat
- Bridging the Skills Gap: Aligning Education with Future Economic Needs.
- Human Capital and Skill Development: Preparing India's Workforce for a Developed Economy
- Viksit Bharat through Financial Literacy: Empowering Citizens for Economic Prosperity
- Women Empowerment and Economic Growth: Gender Parity in Viksit Bharat
- Education for a Knowledge Economy: Aligning Policy with Future Needs

4. Digital Transformation: Bridging the Urban-Rural Divide

- Digital India and Economic Transformation: Role of Technology in Achieving Viksit Bharat
- Rural Transformation: Empowering Villages for Economic Growth
- Rural India and Economic Development: Empowering Villages for a Viksit Bharat
- STEM Education and Economic Competitiveness in the Digital Age
- India's Governance: From Ancient Republics to Digital Democracy

Subthemes:

5. Education Reform and Skill Development for Economic Transformation

- Role of IKS for Viksit Bharat
- Bridging the Skills Gap: Aligning Education with Future Economic Needs.
- Human Capital and Skill Development: Preparing India's Workforce for a Developed Economy
- Viksit Bharat through Financial Literacy: Empowering Citizens for Economic Prosperity
- Women Empowerment and Economic Growth: Gender Parity in Viksit Bharat
- Education for a Knowledge Economy: Aligning Policy with Future Needs

6. Geopolitical Challenges and Opportunities in Innovation

- Trade and Foreign Direct Investment (FDI) in the Pursuit of Viksit Bharat
- India's Governance: From Ancient Republics to Digital Democracy
- India's Role in Global Economic Governance: From Emerging to Leading Economy
- Ancient Trade Routes to Global Supply Chains: India's Economic Integration with the World

Subthemes:

7. Chanakya's Economic Strategies: Insights for Modern India

- Chanakya's Arthashastra: Economic Strategies for Modern India
- Good Governance from Chanakya's Niti: Lessons for India's Political and Administrative Framework
- The Vision of a Strong State: Chanakya's Blueprint for Nation-Building and India's Growth
- Economic Ethics and Governance: Relevance of Chanakya's Niti in Combating Corruption
- Trade and Commerce in Chanakya's Times: Insights for India's Global Trade Ambitions
- Chanakya Niti on Welfare and Social Security: Ensuring Inclusive Growth in Viksit Bharat
- The Role of Innovation and Knowledge: Chanakya's Perspective for India's Digital Economy
- Women's Empowerment in Chanakya's Philosophy and its Relevance to Modern India
- Chanakya's Niti on Agriculture: Lessons for India's Modern Agrarian Economy.

8. Role of IndiaAI Mission in Viksit Bharat

- Role of AI in education
- Role of AI in innovation
- Role of AI in economics and business
- Role of AI in human capital
- Application of IKS for Ethical AI
