## President's Welcome Message

Greetings! Shri Vile Parle Kelavani Mandal founded Narsee Monjee College of Commerce & Economics in 1964 with a focused vision and untrammelled thirst to nurture the society. The foundation of this educational institution is to continually strive for excellence in education and holistic development. It is one of the premier colleges in Mumbai which has acted as a catalyst in imparting quality education. Narsee Monjee College of Commerce & Economics offers multifarious programmes like B.Com, B.Com (Hons), BMS, BAF, BFM, B.Sc.IT and M.Com in faculty of Commerce & Economics. In addition to these programmes, the institution also provides certificate courses on contemporary topics like Content Marketing, Behavioural Economics, Data Analytics & Business Intelligence, Academic Writing, Entrepreneurship etc. which gives learners an edge over their peers in the job market by improving their communication, technical and allied soft skills.

Narsee Monjee College has always had a reputation of being the most sought-after college globally. I sincerely believe that our students will be able to sculpt a harmonious blend of curricular, co-curricular and extra-curricular activities through their journey in this temple of learning. It will sharpen their skills and help them to cope and overcome the harsh realities of life. Our social outreach programs by NSS, RCNM, DLLE, Enactus etc. along with special focus on sustainability will sensitize the students towards the pressing needs of the society and help them become responsible citizens of the country.

The biggest asset of our college is its dedicated teaching and non-teaching staff under the mentorship of our Principal & Vice-Principals. Their contribution in the growth of NM College is immense. With this strong background and the perseverance to develop the student fraternity, I look forward to enthusiastic students in our institution.

I wish all of you the best for achieving greater success and scaling new heights in your education and career ahead. With its newly adorned crown of Autonomous status, I am sure that NM College will leave no stone unturned to build a vibrant and inclusive learning community in a culture of excellence sustained by a sound value system that promotes responsible citizenship and effects social change. My warm wishes to all the new entrants to our NM PARIVAR.

**Shri. Amrish R. Patel**

(President,SVKM)

As an alumnus and as part of the management of SVKM it has been my privilege to have both – studied in this College and be associated with the College as the representative of SVKM Management. I am sure that we shall not rest with the glories attained in the past but shall continuously seek to redefine ourselves in the light of changing environment around us. I hope that our inexhaustive list of distinguished alumni who are serving judiciary, administration, education, corporate, politics etc. continues and that we passionately steer the youth towards the upliftment of the society.

All the best wishes for a fruitful college life at NM.

(Mentor, N.M. College)

## From Principal's Desk

Warm Greetings! It is with profound sense of humility and privilege that I reach out to all of you as the Principal of this prestigious institute. SVKM's Narsee Monjee College of Commerce and Economics had its inception in the year 1964. I am happy to convey that the Education World Rankings of 2022-23 ranked our college as the 3<sup>rd</sup> Best Private Autonomous College in India. World's largest financial literacy drive for the teachers and 12746 plus students was conducted by NM which is a remarkable achievement for us. NM College secured second rank out of 121 colleges and 500 participants at Gurjari Namostute - a Gurjari literature and cultural intercollegiate fest of KES College.

It is undoubtedly the most sought-after college nationally offering a multitude of courses and opportunities. NM's mission has always been to provide an overall educational experience, in academics and character development of students by creating life-long learners in a learner-centered environment.

NM witnessed a progressive implementation of autonomy amidst the unprecedented pandemic. We witnessed that autonomy is helping tremendously with upward mobility of NM because we are able to keep pace with the dynamic environment, increase the skill & ability of students, ensure that community engagement is possible through innovative curricular, co-curricular & extracurricular activities, and move positively towards achieving our vision.

We at NM have always made every effort to reach out to the students and are now moving towards the implementation of New Education Policy. This ensures holistic development of students and will guarantee academic mobility through more subject choices that the students will have now. For the academic year 2023-24, NM has also registered for the Common University Entrance Test, which will allow students at pan India level to get admission into our college. We have an extremely dedicated staff who are always willing to go that extra mile to ensure that true value addition takes place in teaching-learning process and between 2020 and 2023, eight faculties have been awarded Ph.D degree in their respective discipline of specialization. Dr. Muktha Manoj Jacob, Head Dept. of Business Communication and one of our senior Professors has been awarded with a "Life time Achievement Award" by IIERD for her contribution in the field of Education and Research.

We have been upgrading the curriculum significantly and are trying to bring it in par with level of professional exams. Our innovative new programs like B.com [Hons], B.com[Economics] and B.Com[Economics & Analytics] in the first 2 years of Autonomy and few more programs like M.Com [Advanced Accountancy]& M.Com [Banking and Finance], have already performed wonderfully well in the academic year 2022-23. Around 6/7 new 30 hours certificate courses were also completed successfully in first two years of autonomy. We have increased the number of credits for all UG programs from 120 to 132 & for Hons program to 148 credits according to UGC norms. There is a complete focus on application based and experiential learning with questions testing the students' comprehension, analysis and creative ability.

Academia Industry linkage is further strengthened through signing an MOU with Bombay Industry Association (BIA), Khadi India, Ekal-Yuva etc., which will give a better exposure to the students and hands on learning experience. The rich alumni in diverse fields like Chartered Accountancy, Administration, Politics, Entertainment and Sports are a testimony to this. Through the 'Alumni Connect', where the alumni reach out to our students through 'knowledge Series' not only provide hands-on experience but also help in placement of our students. A Vibrant Training and Placement cell, which provides soft skill training of around 100 hours over and above the existing curriculum, ensures that top notch companies visit the campus and recruit the students.

The institution thus trains the students to rise from being "Dependent" to becoming "Dependable". We are extremely elated and are motivated to keep on improving in future!

As a student, you can definitely expect to have an enriching experience that propels you to make the best of the opportunities available since NM college is guided by the conviction that, "Intelligence is not a privilege but a gift to be used for the good of Humanity".

We commemorate the 22-year journey of Umang by looking back to recognise how far we've arrived and how gracefully we've developed. This year, Umang, Asia's Fastest-Growing Youth Festival, took place from September 15 to September 18. It is the Narsee Monjee College of Commerce and Economics' (Autonomous) yearly intercollegiate event. Umang, which has always adhered to the adage "Reach for Moo-re," made a notable impression this year with its robust recovery from the pandemic.

Umang is known for the top-bracket sponsors it brings on board every year. Viral Fission, Sugar Cosmetics, PVR and Sony BBC were some of the remarkable sponsors that took this festival to new heights. Apart from this, the PRonites here are something that Umang is known for. Arjun Kanungo, Zaeden, DJ AJ, Gully Gang artist DJ Proof along with Neha Kakkar were indefatigable during their performances, giving the audience an experience of a lifetime. Belgian Waffle, Bombay Tacos and Food Adda were some of the many food sponsors that served scrumptious dishes. The JVPD Ground was teeming with over 4000 people every day and over 200 colleges participating. A celebration of music, dance and food was witnessed on all 4 days of the festival.

### **SOCIAL CAUSE WING- PARVAAH**

Umang offers numerous opportunities for students who aspire to change society for the better, thanks to Parvaah, its social cause wing, that has initiated and carried out numerous projects this year with resounding success, all of which are a storehouse of lessons as well as leaders of change for many others out there. The first one was 'Stray Happy'. On account of the Indian Independence Day, Team Umang collaborated with various NGOs for an initiative to feed nearly 3000 meals to stray dogs in the suburbs of Mumbai (Juhu). The next event, "Just Ask" was in collaboration with the Swastha Therapy Clinic, wherein Team Umang had arranged for a mental illness seminar as well as an anonymous therapy session, where students could ask their queries on the tellonym application and the professionals at Swastha Clinic would answer them. Team Umang also collected over 1500 plastic bottles to make 2 kennels for dogs that were placed near the Juhu beach. Umang collected over 250kgs of plastic waste which was used to fill the waste bottles used to make the kennels. Umang donated over 150 sanitary kits to underprivileged women in the slums of Bhandup and Mulund consisting of, Sanitary Napkin, Anti Rash Cream and Pain Relief Patch and other feminine hygiene and wellbeing products. These products were provided by Sirona.

It is overwhelming to see a multitude of changes in people's lives and Parvah plans to continue to do the same. Umang made it all happen with the right initiative and perfect execution even in such hard times of Covid-19 pandemic.

### **PRE-ON DAYS:**

Speaker Sessions: To lighten up the spirits and free up the hectic minds, Umang's workforce had the pleasure of interacting with the very famous and well-known cast of Ek Villain Returns, Jayeshbhai Jordaar, Heropanti 2 and Jersey. Umang was graced with the presence of Ranveer Singh, Shahid Kapoor, John Abraham, Tara Sutaria, Disha Patani, Arjun Kapoor and Tiger Shroff in 2022. The events hosted by Vishaal Rasquinha were enthralling, insightful and refreshing. The workforce interacted with the Bollywood Megastars as they shared their journey and success, it was a fun learning experience for everyone in attendance.

Team Umang also hosted a Photography Session with Keyur Mehta where he taught the tricks of the trade to all the young and aspiring photographers.

Team Umang also hosted the Under 25 Pre-Summit where the founder Shreyans Jain highlighted key points about the life of a college student and educated the crowd regarding the future of our country.

### **ON DAYS:**

**Day 1:** There were a total of 16 events conducted with over 391 participants from 100 different colleges and a footfall of over 3000. The first day was a perfect kick-start to the festival. The first half of the day was marked by a series of events such as Mixed Martial Arts, Bandistaan, Flashmobs and Le Tour De Mumbai among others, followed by Arjun Kanungo's performance in the evening. The crowd went crazy when he sang his well-renowned tracks.

**Day 2:** There were a total of 15 events conducted with over 350 participants from approximately 150 different colleges and a footfall of over 3200 people. Day 2 comprised events such as the Call of Duty, Sufi Singing and the Ultimate Forge among others. One of the most anticipated PROnites of the festival was that of Zaeden. He charmed the crowd with his voice and humble attitude.

**Day 3:** There were a total of 22 events conducted with over 300 participants from approximately 150 different colleges. Events such as Into the Rap Verse, Lincoln Lawyer and Valorant were conducted. On the Third day, the crowd was taken over by DJ AJ's high-spirited performance. He made the crowd dance to his remixes just like the snake charmer hypnotizes the snake. A galaxy of flashlights spread across the JVPD grounds while he was performing.

**Day 4:** There were a total of 12 events conducted with over 200 participants from approximately 100 different colleges. On the last day events such as Fashion Show, Umang Laugh Club and Slow Motion Angreza were conducted. The highlight of this day was the War of DJs event. The participants delivered remarkable performances. Their remixes and choice of trendy songs made the event livelier. This was followed by a performance by Gully Gang artist DJ Proof giving this festival the conclusion it deserved.

The year 2022 was not less than a challenge accepted by team Umang to revive college life and the memories one creates. The organisation and management of the festival were up to the mark. The snippets of the festival took the internet by storm as it gave people four splendid evenings to remember.

**Events & Marketing HOD- Meet Zaveri, Neha Isloor**

**Digital Arts HOD-Moksha Shah, Hemal Shah**

**Public Relations & Admin HOD- Ojaswi Munot, Kasvi Shah**

As the academic year of 2022 - 2023 began with a transition into offline college, so did many other fests and committees within NM College, with the Wildlife and Nature Club at the front. Having assembled its core members and heads, it wasted no time in kicking things off.

## Social Media Initiatives

Beginning with social media initiatives, post and reel series ranged from a multitude of topics, like Pokemals - a series drawing upon famous Pokemon inspired by creatures found in the wild, a Top 5 series of everything – ranging from tourist hotspots to mysterious places buried deep under urban legend, Fiction Frenzy – animalistic and humanoid figures of fiction,

With Deadly Consequences – plants and fruits that are out there in the wild not meant to be toyed with, and tons more. WNC's social media handles were buzzing this year with the diverse and varied posts and content being uploaded for the campus to see on a weekly basis.

## Teachers' Day

**Date: 13th September, 2022**

To make sure that the club's engagement with the community wasn't only virtual, various events were held throughout the year. In collaboration with the Marathi Sahitya Mandal, Gujarati Sahitya Mandal, and the Hobby Centre of NM, WNC hosted this year's Teachers' Day event. With a heart-touching poem written by the Club's Secretary, Priyanshi Doshi, the event contained a multitude of highlights, like a traditional dance performance and lots of questions, answers and speeches to keep things as lively and joyful as possible, with all the teaching staff left nothing short of awestruck and thankful.

## Newsbusters

**Date: 14<sup>th</sup> September, 2022**

The second event of the year involved a hands-on participation by the students, which would test their knowledge and wit in every sense of the word. Being given quizzes to identify places and name events, then a game of Psych with a nature-themed touch, followed by scavenging newspaper headlines, cutting out letters and getting creative with headlines, then all summed up by a debate over the benefits and drawbacks of vegetarian and non-vegetarian diets and its effect on a larger scale.

## Traders Valley

**Date: 25<sup>th</sup> November, 2022**

The event that would conclude the year was a mock stock event where everyone would be tested under pressure, their business acumen, negotiation skills, and strategic thinking. Introducing twists like black market dealers to tip the balances of share prices, to booming profits and nose-dive losses, it was a race against the clock to acquire the most amount of wealth and take the prize. A thrill ride through and through, competition was the most intense and after a long and dreary fight of numbers and strategies, the winners took the prize for themselves.

As the year now draws to a close, the Secretary and Joint Secretary look back at everything they've accomplished, and eagerly wait to pass on the torch to the next year's club leaders, with all the hopes in the world that WNC '23-'24 will result in double the success and multiply the fun and adventure.

It is an initiative where the team donates grains and other supplies to the underprivileged. This year on the 9<sup>th</sup> of December 2022, the team visited villages in Palghar district and donated 150+ kits. Along with that, the team also assisted 140+ school-going children from all the villages with stationery kits, each consisting – of 1 pen, 2 pencils, 1 eraser, 1 sharper, 1 scale 15cm and 1 long book. The intention was to motivate them to continue their education. ### **Astroworld**

Astroworld was a field trip to Nehru Planetarium organised by the Community Service Avenue for the kids of Salaam Balak Trust, Kandivali. Through this project, we aimed to give the children the experience of a world greater than a world that has very little light. We aimed to show them a sky filled with opportunities and also tell them that dreams can be achieved if you have the courage to work for them. On 27<sup>th</sup> September 2022, the team along with volunteers from the NGO took the students to Nehru Planetarium where they learnt more about space and other external bodies through 3D models and audiovisuals. The sky show they saw explained the Biography of the Universe and how it came into existence, it was really insightful for the kids to gain knowledge about our planet and the galaxy. This project was one of a kind and due to its innovative aspect we garnered widespread appreciation for it.

### The Stagecraft

The Stagecraft was a Silent Play Writing Competition. The aim and innovation for this event were to add value to the work that Editorials can do. It was divided into two phases. Phase 1 was a Silent Play Script Writing Competition where the best scripts would get to perform their Silent Plays at a Deaf Organization in phase 2. Therefore, this was actually putting the things in action and witnessing in real life the impact literary arts can make. The silent play scripts that were chosen were for the play of 'Cinderella' and 'The Gift of the Magi' The Editorials team helped in the performance of the plays with the participants. The showcase of the plays took place at The Bombay Institute for Deaf and Mute and saw an audience of 120+ students.

### **Beyond Borders**

In Beyond Borders, the International Service Avenue collaborated with a club in Lahore, Pakistan in which our main focus was to have a cultural exchange and learn more about the other country whilst at the same time helping them learn more about ours. By collaborating outside the boundaries of our country we aimed

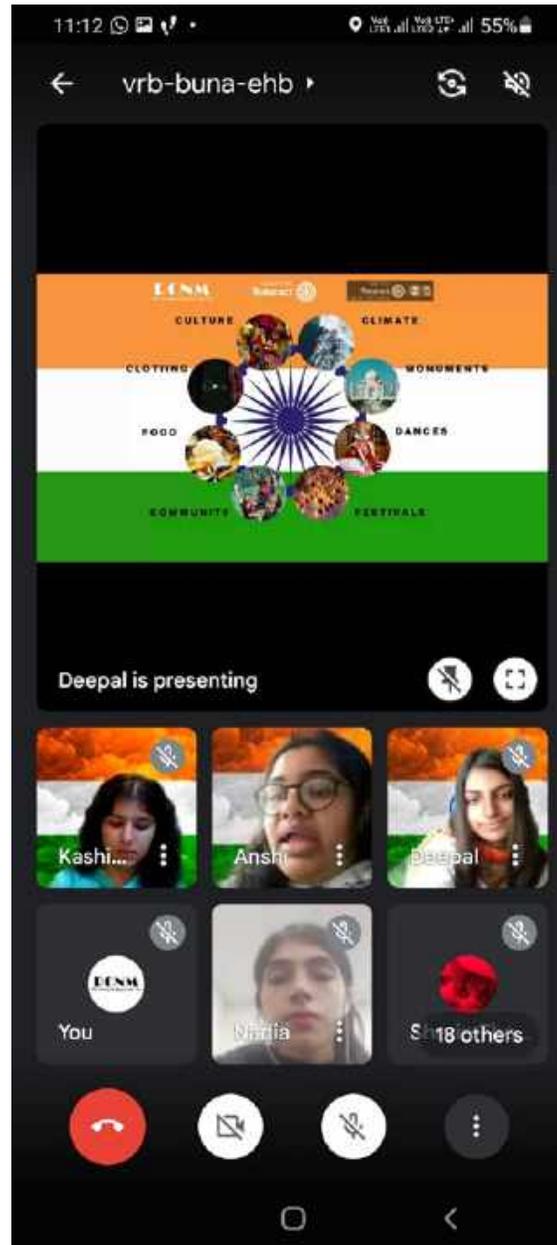

at building a cordial relationship with the club that we collaborated with, especially because of the evident animosity created between the two countries by our ancestors after the divide. We celebrated the Independence Days of both the countries on 14<sup>th</sup> and 15<sup>th</sup> of August, 2022. We believed a cultural exchange would begin when we know about the other country so we decided to research and make a quiz about each other's country. Then we conducted the quiz that we made for them enthusiastically by reading out the questions and asking them to raise their hands to answer. On the second day, we presented our country's Culture, Traditions, Climate, Monuments, Food, Clothing, Festivals and a lot more. Through this event we got a first-hand experience with cultural misconceptions about each other and the audience had the opportunity to see Pakistan from a different perspective, realizing that we're much more alike than we had thought before.

### Entrescape

Entrescape was an entrepreneurial escape room curated in order to engage the participants with entrepreneurship in the most interesting and competitive way possible. It was a simulation of an escape room, where the clues provided to the participants were based on different entrepreneurship-based ideas and subjects. It was a three-round event covering different practical aspects of entrepreneurship. The project successfully helped the participants in learning and developing a mindset veering towards entrepreneurship.

### **The Intern Experience**

Intern's Experience laid emphasis on the need and importance of Internships on a student's career and his/her professional growth and development. We organized a roundtable conference with a few alumni of N.M. College who have also played an important role in RCNM who had pursued internships and had fair knowledge and experience of the same. Through conversations with the panellists, the students got great insights into their professional lives which directly influenced and inspired them. The active discussions helped the students uncover their hidden interests and helped open doors to various different career opportunities.

### Badminton Unleashed

Badminton Unleashed was a two-day badminton tournament that included regular as well as Paralympic players. Our aim for this event was to provide players with an opportunity to test their skills against each other. It was aimed to support the growth of badminton and all formats of the game based on the number and gender of the players- men's singles, women's singles, and mixed doubles. Our aim was to understand the hardships faced by the Para-Badminton athletes and to provide proper assistance and playing conditions for Para-Badminton athletes. Through this event, we introduced the first-ever Para-Badminton tournament which included WH (wheelchair), SL (Standing) and SU (Short Stature) categories. The tournament took place on the 14<sup>th</sup> and 15<sup>th</sup> of August, 2022 with over 90+ participants joining in from varied backgrounds. ## Rotofest'22

Rotofest is a socio-cultural fest organized by the Club collectively. It is a flagship legacy project which has carried on for last six years. It was held on the 13<sup>th</sup>, 14<sup>th</sup>, and 15<sup>th</sup> of January 2022 with an organizing committee of 100+ members and 25+ events executed. Day 1 was joyously kickstarted with the inauguration ceremony of Rotofest'22. The highlight was the event "Murder at the Inn" which was a murder mystery with clues

placed around Juhu and Vile Parle. Participants had to act on analysis and common sense to crack the case. The highlight of Day 2 was our flagship event, “Mr and Ms Rotofest” of the Performing Arts Department, wherein the participants competed against each other by showcasing their talent and skills to win the title. The highlight of day 3 was “Rotoland” fun n’ fair organized for the slum kids of Gorai. This included a magic show, trampoline, Ferris wheel and a few exciting games for the kids. The approximate reach of the fest surpassed the number of 1000 people and the total number of participants of the fest crossed 800. We had 10+ college contingents participating in the events. ## NOVA'22

NOVA is the Digital Communications Avenue's legacy project that continued for three days this year. The core theme this year was TECH and all the events augmented new applications of technology. One of the major innovative aspects this year was the OFFLINE robot exhibition. It was the highlight of the event as everyone got to witness live robots which had different features and functions individually. Also for one of our events, the floor was transformed into a life-size board game which helped make the game proactive and interesting. We came up with software to make a website where participants had the experience to build a website from scratch without using code, all they had to apply was creative and analytical thinking. This event served as a great opportunity for students who are interested in technology and Robotics. Coming from a commerce background, this event garnered widespread appreciation and saw a footfall of 100+ tech enthusiasts.

This year, we expanded our drive to two beaches Juhu Beach and Versova Beach and even collaborated with the Robin Hood Army Urvari, Mumbai Ploggers – Rashmi Singh, Ikhtiyar, The Leo Club of Mumbai and The Western Clean Shores Community. Through this event, we spread awareness regarding safeguarding the ocean and how we must all work together to ensure its cleanliness. ### **Unfiltered Notes, 20th September 2022:**

This event was all for the people and by the people. All our lovely participants wrote a letter to their favorite song, movie, show or book. They wore their hearts on their sleeves and let everyone read their true feelings. Each entry tugged at heartstrings, left us feeling such a bittersweet mix of nostalgia, hope and filled us with so much love.

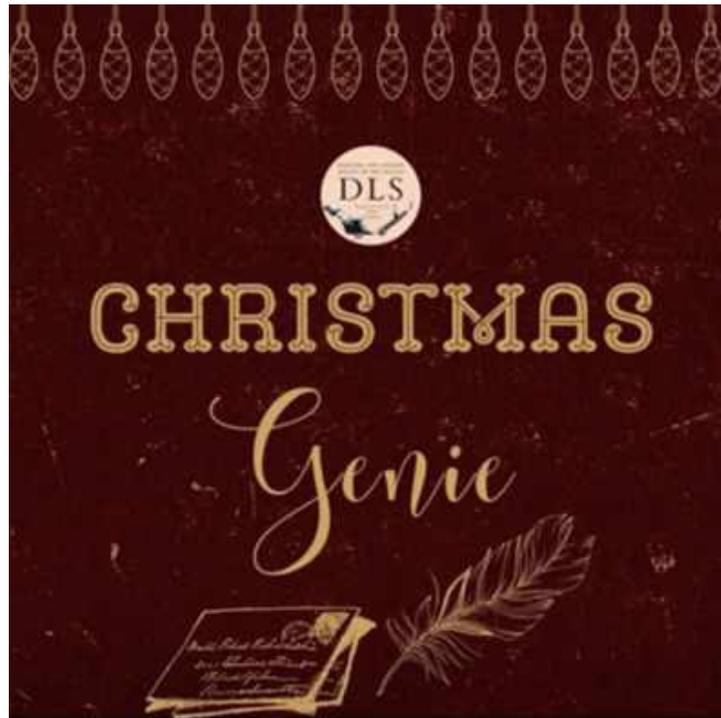

### Rush Hour, 29th November 2022:

*Rush Hour* was where pop culture met world affairs and the union was exhilarating, thought-provoking and spontaneous. With participants getting the opportunity to unleash their inner journalist, it was indeed a one-of-its-kind event that the college had witnessed this year.

### Christmas Genie, 25th December 2022:

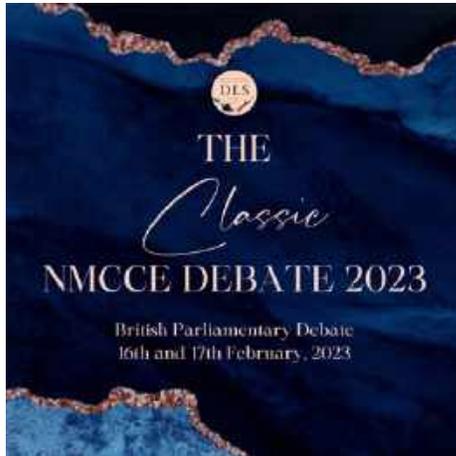

In this week-long Christmas-themed creative writing event, the participants were required to write heartfelt notes expressing gratitude to the Santa Claus of their lives and Team DLS took the charge of delivering these letters to their loved ones.

### The Classic NMCCE Debate 2023, 15th, 16th and 17th February 2023:

The flagship event of DLS followed a formal British Parliamentary Style of debate this year and garnered participation from prestigious institutions across Mumbai. This event commenced with a workshop on the British Parliamentary Style of debating followed by a two-day structured debate. The participants displayed their exceptional skills of debating as they took firm stands in fiery discourses. It observed quality debate and discourse on a myriad of pertinent issues.

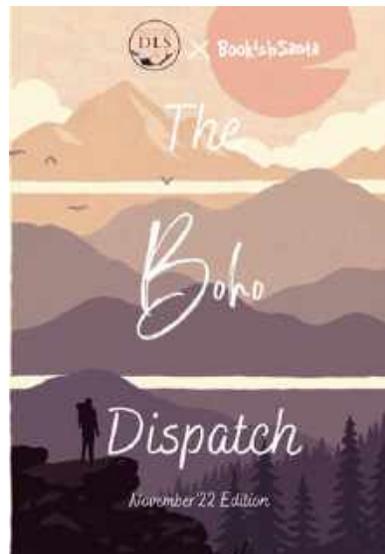

## R&E Initiatives:

These included three initiatives specially curated by the Research & Editorials wing of the society viz., The Reader's Circle, Debate Under a Minute and The Pretentious Pod.

- ▶ **The Reader's Circle** was a body of avid readers who were sent four books hand-picked by Team R&E every month, followed by an interactive discussion on the same at the end of the month. This year we sent across 24 books to our enthusiastic readers, encompassing diverse themes, from renowned authors such as Colleen Hoover, Charles Dickens and Haruki Murakami.
- ▶ As Reader's Circle held the very essence of DLS, **Brewing over Books** kept the debating aspect alive! Deliberating over our favourite reads and having the opportunity to share it with a tight knit community of over 140 fellow bibliophiles became the highlight of every reader's experience at DLS.
- ▶ As the name suggests, **Debate Under a Minute** had invited speakers to debate on given motions related to current-affairs, in under a minute.
- ▶ **Website Blogs** were published fortnightly exploring various themes such as developments in the field of literature or sociocultural avenues. This year our blogs included: London bridge is 'finally' down, Origins of Father Christmas and the Life and Plight of Salman Rushdie.

## The Boho Dispatch by DLS

This year two editions of the semi-annual magazine of the Debating and Literary Society were published which presented interesting content pieces about the society's take on the world of Literature and Pop Culture.

## The Pretentious Pod

## **Intent 2022-23**

The pandemic allowed us to reflect, understand, and improve ourselves, and this same opportunity was presented to us through Intent. We started anew, building the team from the ground up and with the help of our mentors and teachers, and we got closer to our intended vision of being the Entrepreneurship Cell of NM College. The transformation led to the adoption of more engaging, immersive, and results-oriented sessions, as well as a more directed approach in the subjects we covered.

Entrepreneurship necessitates the development of skills such as ideation, innovation, leadership, and problem-solving, which are also crucial for effectively managing organizations like Intent and for overall personal growth.

Our goal this year was to lay a solid foundation through initiatives such as the 30-hour Entrepreneurship Bootcamp and the Pre-Incubation Centre. I am proud of my team for having achieved this ambitious goal.

**Sincerely,**

**Saarth Dawale**

## Computer Society 2022-2023

Taking its decade long legacy forward, the Computer Society of Narsee Monjee College of Commerce and Economics organized four mind-boggling events making Computer Society, one of the most active and well-known college committees for the academic year 2022-2023. The name of the committee may sound misleading but don't let that trip you up! Computer Society organizes events that welcomes students and participants from all backgrounds (and no, you don't need to be a tech geek to be a participant).

The very first event for the year was based on the infamous TV Show, 'Money Heist'. The aim was to increase team building and coordination amongst group members which helps the group to reach its ultimate objective. The whole event was conducted in two phases wherein the first phase was be elimination and top 20 participants moved on to the final heist which was a treasure hunt which explored the deepest corners of the college premises. From wooing the security guards at the entrance gate to roaming the hallway outside the exam room, this event had every possible emotion you could experience!

We took things forward with our second event, 'Cyberscape'. This event was used to generate curiosity amongst all those people who spent their time on the "dark" side of the web and put that knowledge to good use. The immoral acts of hacking were converted into actual and fun events which involved solving problems legally. This event required participants to do something as trivial as blow balloons and something as critical as bidding on the best of softwares to keep their respective companies strong and ready to fight off harmful viruses. The key takeaway from the event was the lesson of team bonding and trust which is necessary in order to win any group competition.

The third and the flagship event of Computer Society was NM TechFest'23 which is NM College's ONLY Annual FinTech and Gaming Festival.

Coming to the least but not the least, we marked the end of our year with 'The Imposter Edition'. Yep, you guessed it right! It's a fun spin on the ever-famous game, Among Us. This game was a combination of the game of cards and Among Us wherein there's one imposter who will kill the crewmates and in the voting round, the people who actually voted for the imposter get kicked out along with the imposter. Interesting, right?

Special mention to our Chairperson for the year, Aayush Patel, who not only dreamt about the big plans he had for Computer Society but also helped them turn into reality. Not to forget, our Teacher In-Charge, Mr Sunil Kadam sir who was there to help us and guide us day in and day out and his contributions in the transition of an online to offline committee surely paid off.

**मि-LAAP'22, 17<sup>th</sup> August, 2022:** मि-LAAP is a platform where first-year degree college students get to know about the various committees/fests that the college has. A video was released on the Narsee Monjee Page which consisted of the logos and names of the participating committees and fests. 28 individual reels were also posted on the page of Narsee Monjee College. Besides, PR messages were circulated across all the classes with the link of MS Teams. Announcements were also made in the classes about मि-LAAP. The main event was conducted online on MS Teams. The PR head hosted the event followed by the secretary who gave a short speech. 28 videos were shown to the attendees in 4 rounds of videos. There was a question and answer round held at the end after presenting all the videos. Lastly, a PDF was circulated in all the class groups consisting of the write-ups of 28 committees and the numbers of the person of contact of the committees they wished to apply for. **Merry Lil' Christmas Party, 22<sup>nd</sup> December 2022:** The month of December brings a lot of warmth, hope, and glad tidings. The Narsee Monjee College believes in giving back to society not just by developing leaders but also by helping the underprivileged parts of society to grow as educated and responsible citizens. To spread the message of love and good cheer, the students visited Shelter Don Bosco, Wadala to celebrate Christmas. The program commenced with little ones who gathered at the venue and were introduced to the wonderful story of Jesus Christ's birth and the importance of Christmas through an animated video before they enthusiastically began singing Christmas carols. The children in their bright and vibrant costumes with Red Santa hats were a delight to watch. The kids witnessed the grand entry of Santa Claus who arrived with sacks filled with gifts. As our Santa Claus got into his sled, there was a "jingle bells" song done with a jig, and the entire audience sang along. Following this, fun art activities were organized where college students assisted the children in making a Santa Claus with the supplies they provided. Volunteers from the college brought a variety of gifts for children including food packets, chocolates, and academic as well as art supplies. The kids as well as the students felt a joyous connection with each other while doing these activities and had the kids asking for more. This festive day was filled with the grace of sharing love and happiness with those who are deprived of any. This Christmas turned out to be perfectly in line with the noble intention of the college, that was simply, to brighten up the faces of the children.

## REPORT

NMFIC Junior has been officially declared as the BEST COMMITTEE OF THE YEAR after our spectacular win in the 'Clash of Committees' organised by the Students' Forum of Narsee Monjee College.

We have also participated in 'PROJECT SAMRIDHI', a world record attempt for the largest financial literacy drive in a day by NMFIC of Degree College.

Soon after its inception, we achieved our first milestone - The grand success of "The Intelligent Investor", an event which tested the analytical, technical, numerical and judgemental skills of the participants. It was organised by us on 10th December, 2022 which saw the participation of more than 70 individuals from the Junior college segment of NM where they had to wade their way through tricky quizzes and confusing asset allocations to reach the podium. The event was graced by our sponsors, Arena Animation, Hoodzilla and T.I.M.E. Institute, along with the Vice -Principal of NM College, Mrs. Geetha Menon.

The event consisted of two rounds. Round one was a questionnaire where the participants had to answer 30 multiple-choice questions on basic finance and investing.

The second Round was a round where the participants had to carefully choose asset classes from a variety offered to them and create a portfolio which would offer them the best returns in a period of time. The securities involved included Cryptocurrencies, T-Bills, PSU Bonds and Corporate Bonds. They were given five minutes in a session where they had to make investment decisions based on News Flashes shown to them.

The participants gave a hugely positive feedback for the event as none of them returned empty handed, taking away some form of knowledge from the event. The best part about it was that the organising committee pulled off the event within a span of a week!

The recognition received from the college is a testament to the club's impact with the support and guidance of our honourable Principal Mr. Parag Ajagaonkar and Vice Principal Ms. Geetha Menon.

यह कार्यक्रम कौशल आधारित था जिसमें प्रतिभागियों को एक विषय चुनने और उस पर बोलने के लिए कहा गया था। प्रतियोगिता में तीन भाग शामिल थे- निबंध लेखन, भाषण और काव्य पाठन।

पहला भाग निबंध लेखन का था, जिसमें छात्रों को दो विषयों में से चुनने का मौका मिला था और उन्हें उस विषय पर एक निबंध लिखना था।

दूसरा भाग भाषण का था, जिसमें छात्रों को दोबारा विषयों की सूची मिली थी और उन्हें उस विषय पर 2-3 मिनट तक बोलना था। छात्रों ने इस भाग में बहुत रुचिकर भाषण दिए जो धाराप्रवाह और वाक्पटु थे। तीसरा भाग काव्य पाठन का था, जिसमें छात्रों को दिए गए विषयों में से एक पर एक कविता को चुनना था और उसे 1-2 मिनट के लिए पाठ करना था। इस भाग में छात्रों ने वास्तव में सौंदर्यपूर्ण कविताएं चुनी और उन्हें उनकी अदाकारी से प्रस्तुत किया।

## "Vibes... What's Your?"

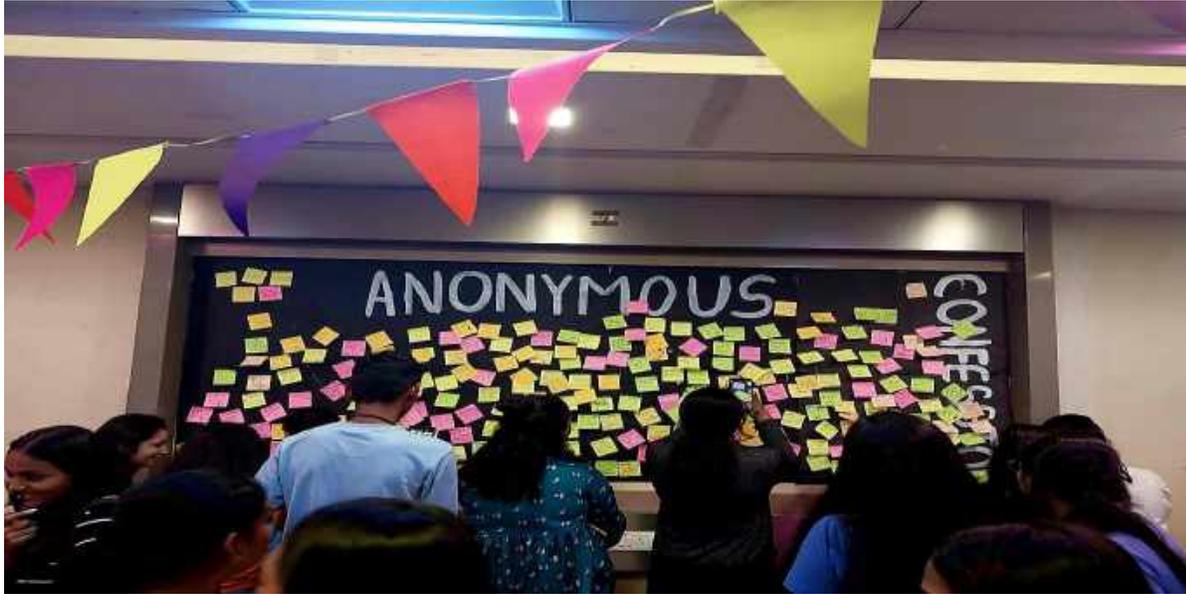

22nd नवंबर, 2022

22 नवंबर को महिला सामान्य कक्ष में एक कार्निवल आयोजित किया था। इस आयोजन में लगभग 500+ छात्र शामिल हुए थे, यह एक महत्वपूर्ण सफलता थी। कार्निवल में कई छोटे-बड़े स्टॉल जिसका संचालन संघ के सदस्यों ने किया था जो विभिन्न रुचियों और पसंदों को पूरा करते थे। इनमें टैटू स्टॉल भी शामिल था, जहाँ छात्र अपनी पसंद के अस्थायी टैटू बनवा सकते थे। अंगुलियों की छाप स्टॉल भी एक अनोखा आकर्षण था, जहाँ छात्र अलग-अलग रंग और पैटर्न का उपयोग करके अपनी अंगुली की छाप कला बना सकते थे।

इसके अलावा, खाने के स्टॉल भी थे जो विभिन्न स्वादिष्ट खाद्य पदार्थ और ताजगी वाले पेय प्रदान करते थे।

सबसे रोचक स्टॉलों में से एक अनाम स्टॉल था, जहाँ छात्र अनाम रूप से अपने विचारों और भावनाओं को साझा कर सकते थे। यह छात्रों को बिना किसी भय के अपने आप को व्यक्त करने का मौका देता था।

समग्र रूप से, कार्निवल सभी छात्रों के लिए एक यादगार पल था जो इसमें शामिल हुए। यह सभी के लिए मनोरंजन का एक बहुत अच्छा स्रोत था, और यह हिंदी साहित्य मंडल द्वारा आयोजित की गई अंतिम कार्यक्रम भी था।

छात्र अनाम रूप से अपने विचारों को साझा करते हुए।

## Indian Media and The 26/11 Attack: From Breaking News to Broken Societies

Ambling along the Colaba Causeway, you might come across the freshly refurbished Café Leopold with the distinguished Taj Mahal hotel looming in the background. Or, you could find yourself in Kalaghoda, near the dilapidated Jewish Chabad house, its walls dotted with crevices that mask the wounds of historical brutality. Despite the tranquil environs, it's easy to revisit the devastating horror of November 26, 2008, that left a deep impression on these Mumbai locations, leaving a trail of ruination and bloodshed.

The monstrous memories of Mumbai's night of terror still send shivers down the city's spine when the serene Taj Hotel fell victim to flames and rubble.

Amidst Taj's mayhem emerged a survivor, battered but unbroken. His escape was nothing short of miraculous, a declaration of the indomitable human spirit that refuses to surrender to fear. But in this moment of triumph, he felt a sudden tug on his hand, forcing him to turn around and face the unknown. It was apparently none other than a persistent reporter from NDTV-News channel, who had been obsessively reporting live from the tragedy's frontlines. As the survivor caught his breath, the reporter, Ms Dutt, thrust a microphone in front of him, probing for answers in the heat of the moment, and began interviewing him. However, in the frenzy of emotion and fear, the man let slip the location of his wife to the world, who was holed up somewhere within the hotel's blood-soaked walls.

The gunfire's deafening sounds and the innocent victims' screams only added to the maelstrom of emotions that engulfed him. Such 'uncensored' airing of sensitive information by reporters like Ms Dutt came under fierce scrutiny, as critics like Chaitanya Kunte condemned the media's actions as a callous disregard for the safety of innocents.

As the world watched in horror, the man's journey through the cobweb of a terrorist attack he had just escaped was far from over.

This 'fidayeen' attack, meticulously crafted by Pakistan-based groups with deep pockets and even deeper hatred for India, targeted specific places to assume an international face. Some aspect or another of the incident kept appearing in print media, with bold headlines, TV shows hosting heated debates, and round-the-clock reportage, for months to follow. The coverage began morphing into a commercialized spectacle, with oligopolistic centralizing trends driving the narrative. This transformation, seen as a stain on the media's record, betrayed its journalistic integrity.

During national crises, journalists practised an irresponsible form of 'adventurous' journalism —flaunting the latest developments from live attack locations, capturing dramatic footage from perilously close distances, all in the name of higher ratings and more views. The coverage was spilling everywhere, reaching the monitors of the Pakistani terrorist groups too. As a high-ranking official of India's security agency RAW said, "it cannot be ruled out that the accomplices of terrorists holed up inside the Taj were constantly giving the latter operational instructions over the phone following the live telecast of the rescue operation as it unfolded itself." The self-serving media was accused of disseminating delicate information and flippantly disregarding the security commandos' admonitions, jeopardizing the safety of hostages and police personnel when brave commandos

like ATS Chief Karkare and encounter-specialist, Salaskar were gunned-down, hardly firing a bullet before their demise.

The Indian communication and broadcasting sphere is plagued by structural anomalies that impede its ability to conduct thorough investigative reporting. This problem has only worsened since the horrendous 9/11 attacks, resulting in coverage that is marked by 'obscenity', which according to Jean Baudrillard, "is no longer the traditional obscenity of what is hidden, repressed, forbidden, or obscure; on the contrary, it is the obscenity of the visible, of the all-too-visible, of the more-visible than-visible."

The media dangerously framed the attack as a declaration of war, marked by phraseologies like "War-front Mumbai" or "Pakistan: our political Satan," painting a harshly distorted portrayal. This allowed the public to link the attack to an extremist motive, tarnishing India's thriving economy and tourism. Asphyxiated under the stifling pressure of cut-throat competition, the media prioritized the erosion of investigative journalism in favour of theatrical coverage, and the negative effects —blood-soaked pictures, morbid impressionistic scenes, violence —over positive ones —objective "hard" information and critical assessments of the developments. This 'patronizing' attitude only served to stoke the embers of vulnerability, causing a widespread frenzy of panic as the body count mounted. The aftermath? An epidemic of crippling paranoia, debilitating sleeplessness, and panic attacks that put psychotherapists in Mumbai and other bustling metropolises on high alert.

Furthermore, the media's political tabloidization ended up furthering the terrorist foothold. By making baseless accusations against the state for operational inefficiencies, they sparked mob fury, fading the state's authority and popular sovereignty.

Similarly uncorroborated were news reports suggesting that many Indians favoured war with Pakistan, demonizing it and sometimes even Islam as a whole. The recital also boosted the electoral attractiveness of parties, like the right-wing BJP party, believing they were better equipped to handle terrorism. However, the media's anti-Pakistan, anti-politician, and anti-state rhetoric reinforced jingoistic communalism and nationalist sentiments, hastening the public's cognitive polarization to fuel a collective thirst for vengeance. Resulting in extreme demands for military action and a rejection of democratic principles, this endangered India's long-standing traditions of secularism and democracy.

The media's accountability in amplifying fear and manipulating perceptions cannot be denied. However, credit must be given where it's due. Despite relentless obfuscation sown by terrorist networks, the media's sting operations in Pakistan and India were instrumental in identifying the militant group responsible, unearthing the Pakistani roots of the lone surviving terrorist, and silencing radical sections of Pakistan's army and Islamic parties who denied Pakistan's involvement in the attacks. These parties had peddled fabricated theories that either India's government had staged the attacks or it was the work of homegrown terrorists with no links to Pakistan.

Their coverage also helped non-victims understand the gruesomeness and extreme brutality exhibited by the attackers. Even today, as I walk the historic streets of Colaba Causeway, the haunting echoes of the hostages' screams in Taj's silent hallways, the bloodstains imprinted on the restored walls of the Jewish Chabad remain vividly etched in my memory —a testament to the media's role in uncovering the 26/11 attack.

Therefore, modern journalists' pursuit of attention-grabbing content can have both advantageous and detrimental effects on society —a double-edged sword that requires caution.

In a world of rampant political neo-liberalization, the media has become a potent force, capable of swaying the opinions of millions. During harrowing times like the 9/11 attacks, Boston Marathon Bombings, or the Paris Terrorist attacks, countless Ms Dutts wield a powerful tool: the ability to become a driving force in shaping

perceptions through its unparalleled reach and persuasive storytelling. And when it comes to terror attacks, the stakes are even higher. Yet, all too often, the media ends up abandoning its obligation as a sentinel of unprejudiced discernment, resulting in the erosion of the public's trust in it.

Editors, keepers of keys to what is to be told to the audience and how it is to be told, hold a crucial responsibility in upholding ethical standards of journalism by flowing unbiased information across minds. As it's a tenuous tightrope walk of getting the story out and ensuring the safety of those involved, it's critical for the bifurcation between the state and editors to be dissolved to strengthen all the pillars of democracy. Until then, the media will continue to sensationalize national crises and turn them into bloodbaths, and reduce complex issues to tabloid fodder and politicians to mere entertainers.

Only then can survivors like the man who braved Taj's horror truly break free from the suffocating grip of the cobweb of infotainment journalism.

## 75 Years of Indian Independence

“Where the mind is without fear and the head is held high...into that heaven of freedom, Father, let my country awake.”

These golden words of Rabindranath Tagore echo in my heart when I think of our nation's struggle for independence.

India, one of the oldest countries and one of the youngest nations, is indeed a land of contradictions and diversity. It's a place where an old man living in the hamlets of Madhya Pradesh feels equally energised on hearing the national anthem play as a girl in the skyscrapers of Mumbai, no matter what God we pray to, we never fail to religiously follow our cricket team-our unspoken, common religion. Seventy fifth independence anniversary is indeed a monumental occasion for our country. It is a time to look back and reflect while looking forward to our equally glorious future. The land of farmers has now transformed into the land of innovation, startups, billionaires while carrying the sweet scent of soil in its heart. Over the years, the people have undergone various troubles and turmoil from a culmination of skirmishes flaring into a war with our neighbour to an unforeseen pandemic but with our sheer grit and determination, we've managed to come back stronger than ever.

Jawaharlal Nehru aptly said, “What is history indeed but a record of change” and the tectonic shift not only in India's infrastructure but also in the ideologies of the people has startled the entire world. There was a time where women were treated as second class citizens and caste-based oppression was the norm but today, our honourable President, Mrs. Droupadi Murmu, a tribal woman, is clear evidence of the evolution of people's thoughts.

From bullock carts to electric vehicles, increased connectivity has not only led to a boom in trade but has also brought people from various cultures closer together. The children reading about our first rocket launch in the year 1963 would've surely wondered what the future of space exploration would look like since transporting rocket parts on bicycles would surely not be feasible in the long run. Little did they know back then that if that day announced the birth of India in the modern space age, India cemented its presence in the space race in 2013 by becoming the first country to successfully enter Mars' orbit in its first attempt with the Mars Orbiter Mission. When faced with an economic crisis in the year 1991, the nation called to its educated children to hold the reins and direct it and they led it to a path of stabilisation. This played a major role in shedding light on education as one of the key elements in nation building, so much so that today we are a nation with a premium

on education and strive to provide it to people from all walks of life so that equality of opportunity can become a reality. We've surely come a long way but there is much more left to be done.

The path from developing to developed is not an easy one but when has the land of the most valiant warriors been afraid of taking risks and believing in itself?

In order to move forward towards greatness, it is imperative that truth, and only truth, prevails in its clearest form. We are blinded by the propaganda that is constantly thrown at us either through the silent words of the newspapers or through the screaming windows of our television screens. When truth prevails only then will this civilization be able to use its own conscience and work for the good of the people. Moreover, the formation of a tolerant society that is intolerant only towards intolerance is extremely important. It's the 21st century and I believe it's high time we stop judging people for their head scarves and head tattoos. We are better than this and deep down, we know that. While we strengthen our businessmen and boost our economy, we must not forget that a large part of the nation consists of people who still strive to achieve a normal life with their basic necessities being taken care of. As Anne Frank rightly said, "No one has ever become poor by giving." It is our collective responsibility to ensure that while the rich sleep in their silk robes, the poor don't freeze to death in tatters. We have come so far and there is a lot more to do but I have full faith in my people that together we can and together we will.

Jai Hind.

## Choosing The Right Person

**"Choose the person who recognizes that love isn't just an emotion, it's an action; love is what you do for someone else. It is being there, showing up, it is prioritizing."- Ruby Dhal**

I hope one day you realize that love is about choosing the right things for yourself. It means being with someone who appreciates you and believes in you more than you believe in yourself. Fall in love with someone who chooses you: someone who has loved you yesterday, loves you today, and will continue to love you tomorrow and forever. Choose a person who fights for you, makes your dreams his own, supports you during your highs and lows, and cherishes every fragment of your existence.

Love is about choosing the person you are sure of; it's about choosing the one whom your heart chooses. Be with the one who feels like home because being with them becomes as easy as breathing; they make time for you, make you laugh, cry and giddy with joy. Stay with those who are good for you and bring out the best in you. They bring peace to your soul and fill your life with wonder and hope. You know they are the ones when you can't wait to grow old together, or when you can be vulnerable and show your flaws to them but still won't be judged. You deserve someone who is proud of you, who waits for you and looks at you with such warmth in their eyes that it melts between your bones. Moreover, you deserve someone who loves you fiercely, not just in words, but in action.

Lastly, fall in love with a person who is both—your safe place and your biggest adventure. But don't forget, you need to pour love in yourself first before choosing someone and letting them take over your heart and soul. The journey of choosing begins with YOU!

## Have Gadgets Restricted Children's Imagination?

I start by quoting one of the greatest artists that ever lived, Pablo Picasso. He said that "Everything you can imagine is real." But what do you do when the imagination is not natural, nowadays influenced by technology? There isn't a better way to summarize today's scenario than this question. Millions of people are captivated by the beauty of the updated software, the attractive displays, the interactive apps, and the dynamism of the gadgets. All these people live daily with their heads bent and lowered in front of their devices, and people still say that Akbar was the greatest emperor who ever lived. The generation affected the most by this technological advancement is mine. Kids and teenagers seem to be the most vulnerable to the negative influence of technology because their mentality and worldviews are far from being developed to the fullest.

Well, what would we define imagination as then? According to the scientific concept of cognitive psychology, divergent thinking is the reason that creative explanations are processed in our brains. In normal daily life when you think about things from the perspective of 'what if?', that time your brain sparks up and adds more fuel to this ordinary thought. Functions and senses such as observation, visualization, memory, association, and reasoning work together to shape the ordinary into the extraordinary. But this whole process is effort-driven. Effort is the main driver of imagination. Only when the mind is ready to think out of the box and accept new possibilities and changes, can this whole process succeed. Effort is the link missing in today's children. When a task or any work is assigned to them that includes thinking and creativity, no effort is taken to self-assess the task. One simply goes on the web and surfs for the answers. For e.g., when people use Pinterest for artistic references but end up using them as their original pieces; or times when school projects and assignments are taken from the Internet.

When children use gadgets for their education, they don't have enough time for self-reflection and analysis. As a result, imagination degrades. Our brain doesn't think it needs some analysis because everything can be solved with the help of smart gadgets. The effort part has already been done by someone who had imagined that particular design or the answers to one of the questions. Once you catch a glimpse of it, you cannot pry your eyes away from it. At this point, it is no longer imagination but influence and that is exactly what is happening today and that restricts children's imaginations. Children's imagination evolves as a result of them being in touch with their surroundings. Due to such interaction, their mind begins to create a unique world of their own. Steadily, unimaginable projects turn into real ones. Kids begin to formulate logical connections and find new and more uncommon ways to solve different issues. However, when they do not interact with the real world but use electronic mediums they are deprived of such abilities.

The reality is that this generation is not prepared for the chaotic nature of today's technology. Children are not prepared for such a great challenge. They do not have enough experience. The fact that everything is readily available for them served in a plate and kept in front of them, all they have to do is just take the effort of eating it. We have to make them use their own minds and be in touch with physical mediums through drawing on paper, reading books, playing outdoor games, doing object explorations, etc. If not, then they might not be able to develop complete imagination skills and will always turn to their gadgets. The sooner we together as a community have this moment of realization, the better for our children and the future that lies ahead.

## GROWING BEYOND THE SYLLABUS

Greetings! This is Loukikk M. Chhatbar a student of SYJC NM 2023 batch. Apart from studies, I'm an author of two books from the self-help genre. I published my first book at the age of 14, making me one of the youngest self-help authors in India. All this might sound a little overwhelming, but trust me, before all of this, I'm just a teenager like you who is curious about life, so much so that my friends and teachers jokingly say that I ask too many questions.

Now the first question that will pop up when you pick up my latest book "Growing Beyond the Syllabus" is WHY listen to a 16-year-old writing about life? What does a teen know about the ups and downs of actual life that he is writing a self-help book for teens? So, the biggest reason for writing this book or what inspired me to write, is that I know the pressure of just being a teen in these changing times. One doesn't need to have any additional problems or difficulties to feel pressure; being a teen is enough to feel the pressure.

I say this because I know what it feels like to face confusion, changes, and anxiety. Being surrounded with questions and brimming with curiosity about what to do, how to do, and when to do. Not finding the right person to ask these questions or not finding the answer to them, we teens never easily open up and talk about it. All this adds to the uncertainties and confusion in the tough changing times. Someone had aptly quoted, 'Teens are the most misunderstood people on earth. They are treated like children but expected to act like adults.'

Bookish-Knowledge and education are all available in school, but what about things beyond the syllabus? What about personality development, leadership, entrepreneurship, time management, financial literacy, behavioural skills, and mental well-being? All these topics are crucial and vital to a person's life, so where will a teen understand more about them? The syllabus doesn't cover such subjects, nor do people often discuss them. When an adult talks about this to a teen, it's likely to feel like a lecture or a blabber, and we teens aren't often comfortable and open talking about it. Even when it comes to books, there are thousands of self-help books for adults, but there are very few for teens addressing questions about personal growth and well-being. Even if these books exist, they are rarely written by a teen for teens. The content is outdated and no longer relatable, or the book is a tough read with complex statements and unheard words (like jargon) for us teens to understand.

But 'Growing Beyond the Syllabus' is not just another self-help book only for the wise and mature adult audience. I wanted to write something that caters to all audiences, especially the youth, intending to reach out, create awareness and solve doubts and confusions. This book includes the unanswered questions and the necessary to know about topics presented in a simple manner with daily life examples.

A teen discussing it with a teen becomes a talk, a discourse, and it becomes more open to understand and grasp. Therefore, throughout this book, I have tried using a theme of discussion rather than a lecture or speech. Rather than saying, 'You should do this, you have to do that,' the softer approach here is saying, 'We can do this, we will do that.' The approach is to be a friend rather than an instructor. Honestly speaking, even I'm trying to implement some of these aspects in my life fully. A reader who picks up this book is about to begin the journey on whose road I'm not far ahead.

I'm not perfect; you are not perfect; nobody is, and everyone is changing, developing, and growing. The main point of this book is that it doesn't promise unrealizable and unachievable progress but aims to instil small changes in life. Small changes, when compounded, make big things in life. So, if I can do this, you too can! Because everyone is special in their own way and can achieve wonders in their own respective fields. I hope that this article inspires you to bring change however small in life. We should never forget that the journey of life is not to become like some successful personality but to be a slightly better version of ourselves every day. In simple words, HUSTLE NOW, REST LATER.

## Vision for India in 2030

India - the land of culture, agriculture, diversity, spices and largest democracy is also a superpower in the making according to me. This decade appears as a great opportunity for a country like India which is already an emerging superpower to firmly develop.

Post pandemic, this decade comes bearing opportunities worth grabbing for our country. India is now looked upon as a major manufacturer and producer also it is immensely trusted as a reliable country because of its dedication towards growth and development. My 2030 visionary for India is grand. In the upcoming years India shall be focusing on rural urban divide which makes urbanization and industrialisation equally balanced and the problems regarding refugees and migrants will be solved. India will also be a country that will be a superpower in various fields of medical sciences, agriculture, technology, atomic energy, automobiles, and defence. It will serve as a collaborative platform globally, and we can also foresee impressive economic transitions that point towards immense development. The decreasing fiscal deficits and economic development will support workforce expansion hence, the demographic growth will be managed in the right avenues.

India will be focusing on technological and scientific development and implementation of them in various other fields. It will be merging technology and agricultural research to have an impactful progress. India will also be a superpower not only because of the nuclear and atomic powers it will be holding but also because of how it carries social and public welfare along with development on its shoulders. And the year 2023 is the mark of the beginning of a new India - a visionary India.

## Falling in Love with a Poet

It must have been excruciating falling in love with a poet;

Exhausting and exuberant at once;

You know it's difficult and beautiful to fall in love with one, don't you?

They will end up writing too much about you,

Every inch and every curve in you put down on paper,

It's funny how you will never realize at which point did you lose yourself among words;

They will hold pieces of you in between places and lines and paragraphs;

Breaking you into a million stories,

A thousand times;

It must be exhausting trying to join pieces of that puzzle over and over;

It will hurt knowing how you could never truly fall out of their love,  
But they will grow out of yours;

After finding traces of you in their musings even after you have been gone a long time,  
You must feel used;  
Annoyed to have become immortal,  
Because their words find a corner in some heart every century,  
Each time being objectified and metamorphosed zillions of times until-  
they lose the true you and you become just a fragment of their imagination,  
Truly understood by someone only a long time after you have been gone;

You see, you will never be able enough to understand a poet,  
They are just a volatile mess disappearing into the moment;  
It's funny if you ask me,  
How they would have explored every crevice of your being by the end of it,  
Pulling out beauty from the darkest and loneliest of places which you wish were left alone;

You see, if you fall in love with a poet, you will die a million times, and every time you will be mourned by a stranger.

## I Remember...? ART

I remember giggling with joy and excitement on the first day of kindergarten when the class bustled with toddlers wailing at the fading sight of their mothers.

I remember the times my mother used to hold my hand tightly when the locals were a little extra crowded.

I remember how my father used to keep litchi candies in his pocket at any given point of time, so that he could always give one to me when I demanded for them.

I remember how my sister used to randomly suggest going out for coffee every time she sensed that I was anxious and felt unrest.

I remember waking up to the 100 calls from my friends made out of sheer fear, concern and death scare after I was false alarmed to be missing.

I remember the first time we went out for coffee.

I remember how we did not order coffee.

I remember how you goofily bit into the garlic bread while I sneakily hypertexted my best friend about how well this “date-non date” was going.

I remember how we did not take pictures that day; but I also remember vividly capturing every moment in the art gallery of my mind.

I remember all of this because the burial ground of these memories gives birth to my art.

Art that is so unhinged that it could cut sharper than a chainsaw or comfort me more than my mother’s lap ever could.

Art that is so full of angst that it could burn anyone in sight or love that swells up more than the water in the seven seas.

Art that is so affectionate that it paints a pretty portrait of you by the beach during the sunset or so deranged that it makes a sketch of your pretty face with the ashes after your cremation.

## The Midnight Hour

Darkness falls across the land  
 The midnight hour is close at hand  
 Creatures crawl in search of blood  
 To terrorize your neighbourhood  
 And whosoever shall be found  
 Without the soul for getting down  
 Must stand and face the hounds of hell  
 And rot inside a corpse’s shell  
 The foulest stench is in the air  
 The funk of forty thousand years  
 And grisly ghouls from every tomb  
 Are closing in to seal your doom  
 And though you fight to stay alive  
 Your body starts to shiver  
 For no mere mortal can resist  
 The evil of the thriller

## Magic of Monsoon

Tucked in my bed with a book,  
hearing the pitter-patter of rain, I give it a look.  
The rain ran down the windowpane,  
making me take a trip down memory lane.

With every drop striking the ground,  
I fondly reminisced good old days with every sound.  
The arrival of rain brings joy for some,  
while it makes others glum.

The melancholy darkness caused by the turbulent clouds,  
covered the sky with misty shrouds.  
The only welcoming thing was the cool breeze  
and the enchanting sound of rustling leaves.

Enjoying the pleasant weather  
and observing the changes in nature  
gave me immense pleasure  
and the memories that I could treasure.

## Is God watching the world burn?

The emotional oceans with sinking drowns  
The cascading silences echoing through the towns  
Nights filling melodies from radios are tapered off like a down photobooth  
It has the lingering whispers -you sent to your old self (some kind words of true help)  
Wishing that you knew that before,  
There's alarming sorrow that escapes down your white sheeted pillow  
We've lost the innocent sense to all our phrases

Now, there's no glass bottled soft drinks  
 Or laddered sibling bunk beds  
 We miss the first rain showers of seasons with a freedom to witness  
 All we've now are dusted mattresses that once poured esteemed smiles  
 We've the feathered quills, that lay in last wooden storage box -you only check while shifting  
 There's dried ink pot, which no longer writes any letters to dear ones  
 There's a fluttering table lamp, that captured a hundred flying memories and its glimpses in the dark,  
 All we've now are, vacuumed blankets and moved out families.  
 Missed calls and rusted telephone lines.  
 Fear of love and constantly getting better at goodbyes.  
 There's life stranded on last street of every city  
 Hearts full of life are left condemned to regrets and lost hopes.  
 They replaced forgiveness with revenge,  
 They wonder what they "are"?  
 They fear what they became and what they couldn't  
 With shackles of secrets and idea of choked love  
 Dear God, are you watching the world burn?

### Loving Myself Is Agony.

Loving myself is agony;  
 Trying to kiss every scar,  
 Every stretch mark,  
 Every inch of it, and comfort my body is tough;  
 There is a syrupy heaviness in the air,  
 I can't inhale the optimism,  
 My spine clutches,  
 And my consciousness goes off to sleep;  
 Is loving my body a sin?

I like my hair the way it is, a little mixed,  
Some parts of it wavy,  
The other very straight,  
I like my lips the way they rhyme symphonies off of each other;

I think sometime in ancient Greece,  
There walked creatures with eight limbs,  
So much love for themselves held their heart,  
That God split them into two parts,  
I keep on searching for that other half;

I think loving myself is a paradox,  
Agony and bliss wrapped up in a neat purple box,  
I think loving myself is VERY tough,  
But I don't think I can give this up.

## LIFE

Sometimes I sit and ponder the purpose of life,  
Full of its absurdities, surprises and strife.  
Sometimes I wonder if it's too early or too late,  
Sometimes I take my chances, and sometimes  
leave everything to fate.  
'Tis all about moving on from dreams and ambitions that desolation and pain crush,  
Life's a painting, and we're the only ones holding the brush.  
People often come and go,  
Always must we advance, through life always must we grow.  
All the world's a garden and you and I are one of the millions of seeds,

Perhaps we can't elongate life, but we can make it better with our deeds.  
What's the point in going after fame and glory to soon be forgotten, why even bother,  
For life is a queer thing, there one moment and gone another.  
Life's an endless rat race of hunger, conquest and thirst,  
Yet when death comes, never do the good people complain why they're picked first.  
Take as little you can for the real joy is in giving,  
It is perhaps the most fleeting moments of happiness that make life worth living.  
Life is sometimes a black and white mural,  
For you spend most of it gathering people for your funeral.  
They say beauty is in the eyes of the beholder,  
The outlook on life makes the greys duller or the bright colours bolder.  
For years we surged ahead of everyone and strived,  
Matters not how long our life is, it's all about how it was lived.  
Life's a hill of triumphs, failures and jubilation,  
For it is nothing if not a big celebration.  
Give flowers for thorns and love for hate,  
The more you celebrate life, all the more there is in it to celebrate.  
The past is locked away and to the future we hold the keys,  
We live only once, so why not make it a masterpiece?

## THE LIGHT OF MY LIFE

With hands that toil from dawn to dusk  
She works so hard, it's almost a must,  
She manages everything with grace  
And never shows a frown on her face.  
Her strength and persistence inspire  
Even when the days are dire,  
She keeps going, never giving up

Always ready to fill another cup.  
And yet, amidst the sweat and strain  
Her smile shines bright, never wanes,  
It lights up the room, warms the heart  
And to me, it's a work of art.  
For it's a symbol of her resilience  
Her unwavering spirit and brilliance,  
And though her work is tough and rough  
Her smile has won my heart, that's enough.  
So here's to her and all her hard work  
May she never lose her smile, never shirk  
For she is an inspiration to us all  
And her smile will forever stand tall.  
I admire this girl, with all my heart  
For her hard work, her smile, and her art,  
And though life may throw us all around  
Her spirit will always be the light that I've found.

## Two Souls

The rains showering hard,  
And the sun not really willing to shine out bright,  
Eyes had now begun to flood with tears,  
And the heart,  
The heart was soaked in pain,  
The golden years of friendship were now about to break,  
The glorious rainbow of trust was now going to fade,  
The two pure souls were distancing by growing hate,

But ,  
Little did they remember that their roots were entangled in the delightful waters of love,  
And all it needed was a sorry to rebuild their ways,  
The first one sat by the window sill,  
Her thoughts imagining thunder,  
Even though the sky was in beautiful paints,  
Her mind floating with the clouds,  
Holding emotions which were soon going to fall out,  
She thought,  
If only I could tell him,  
All I wanted to be was a good friend,  
The world's a sour place to go,  
But it was you,  
Who taught me to make a lemonade out there,  
Now that you have gone,  
My heart feels crippled with little pieces at war,  
Oh! I am so sorry!  
If only I could commit this to you,  
Things would not be the same,  
Things would not be the same,  
The other lost soul sat on his couch,  
He too could see the clouds float all around,  
His heart was drenched in waters of cold,  
His mind was shivering with thoughts he could not behold,  
His ears could hear his inner self speak,  
Oh dear! I did love you eternally,  
It was you who colored this barren sky of mine,  
It was you who taught me to dance with the rains pouring down high,  
Without you this world seems like a barren island,  
Where rains do pour,

But with rusted black stones  
After all this,  
I do know,  
If and only if you were on my side,  
I could even write ' Life is beautiful',  
With a soothing white chalk on the gloomy black rock,  
And so the two souls did choose to water plants,  
But situated on long distant farms,  
Little did they know that the roots  
took water,  
From soils which were rich in tears,  
Tears of hearts who cried with the same beat,  
To rock on life with the shining Superstar,  
They always admired,  
Time flew,  
Years passed,  
The two souls did meet,  
Tears were now starting to roll down,  
Their eyes speaking what words couldn't,  
And who could understand it more better than a Best Friend ever would?  
Hugging each other tight,  
A small whisper of sorry went past the ears,  
Little did they realize,  
That the plants they were watering,  
Grew fruits similar in every possible manner!  
If someone says that 'Life is Sweet  
Friendship is indeed honey to it!

## Umbrella Of Our Oasis

Into the sand dunes left unraced,  
Lies the oasis forever chased.  
Beyond the destinations,  
Beyond the designations,  
There's a place always untouched,  
Always unchased.

No matter how beautiful we think our lives' oasis will be,  
We might never appreciate its beauty,  
Cause we might never reach there, will we?

Neither to be discovered,  
Nor to be created,  
But honestly, this place is something to be realized.

We're the umbrella,  
And we're the oasis.  
We're the Cinderella  
And we're the fairy godmother,  
And have the liberty to make all sorts of choices.

Like an umbrella protecting us from rain,  
Our oasis is our rainbow,  
Which we think will wipe off the pain.  
If a few notifications of our day,  
Is from ourselves,  
To ourselves,  
Maybe we'll realize that oasis in us,  
And don't just feel that somewhere it lay.

We're a blessing,  
And there lies something extremely prepossessing.  
Everything isn't always in beauty,  
But always about the beauty in everything.

Let's be a professional imaginator,  
A relentless adventurer,  
In our own desert,  
And when we find our oasis,  
Let's celebrate it with dessert!

## **Kalyug**

In this age of Kali, so they say,  
The world is dark and lost its way,  
The righteous struggle to find their place,  
As evil spreads at a relentless pace.

Greed and corruption reign supreme,  
And honesty is just a fading dream,  
Morals and values are cast aside,  
As people chase their selfish pride.

Technology may have advanced,  
But morality seems to have lapsed,  
The world has become a battleground,  
Where the wicked and selfish are crowned.

In this era of Kali, we must strive,  
To keep our conscience and values alive,

For in the darkness, we must be the light,  
To guide the lost and show what is right.

Let us not be consumed by hate,  
Or fall prey to the temptations of fate,  
For only by staying true to our hearts,  
Can we hope to heal the world's broken parts.

In this age of Kali, let us unite,  
To fight against the wrong and shine bright,  
For only then can we hope to see,  
A brighter future, a world that's free.

## HER THOUGHTS

Why does everybody make her feel unwanted,  
Why is she the one who is always taunted,  
Why does her presence always irk everyone,  
But she still waits to be loved by someone.

Why are her feelings suppressed,  
Her nights are depressed,  
But still wants someone to understand her thoughts that she had expressed,  
She still likes to play with her teddies,  
And gets happy by eating those small candies.

She still dreams about fantasy land,  
But does not want him to leave her hand,

She still believes in fairy tales,  
But refuses to follow the same ship in which everyone sails.

But things changed,  
She was like a moon,  
But they gave her the blaze of the sun,  
She was like a calming breeze,  
But they made her emotions freeze,  
She was like a cloud,  
But not only their words, their actions were also too loud.

Her eyes were as deep as the ocean,  
But her life was currently full of commotion,  
Her soul was as pure as the diamond,  
Her voice was as soothing as the waves hitting the shore.

Her smile was as bright as the stars,  
But she locked herself behind the bars to hide her scars,  
Later,  
She roared back fiercely and now even more stronger than before,  
His love gave her the courage to open the door and learn to ignore.

At the end it was her persistence to fight,  
The love of her life who acted as a guiding light,  
His care that helped her confidence to increase,  
And his support that didn't let her soul rest in peace.

## My Place

In the world, where we try to find our place,  
Fake beauty standards are all what we chase.  
I am done with all this shit and nonsense,  
Those who can't see other's beauty should change their lenses.  
Feeling comfortable and happy in our skin is what we need,  
We should stop considering our self as unwanted just like weeds.

We are more than a body and a pretty face,  
Stop running and comparing yourself in this rat race.  
Our personality will speak for us in the crowd,  
Your nature and talents are what will make you proud.  
Stop listening to other people's degrading thoughts,  
Why we bother to do things they say, we are not robots.

Clear your mind, fill it with positivity,  
Kick those people out of your life who spread that negativity.  
Be like a moon, shine in the darkness beautifully with your flaws,  
Let go of the toxic people by opening your claws.  
Be unapologetically proud of who you are and accept yourself just as you want,  
Make your own place and let other people see you as you flaunt.

### वक्त

उदास हूँ मैं,  
हताश हूँ मैं,  
इस वक्त से नाराज हूँ मैं।  
इस वक्त को मैं छोड़ना चाहूँ,  
यह वक्त को मैं ना अपनाऊ।  
दुःख ही बस दुःख हैं,  
आँखों से झलक रहे बूँद हैं,  
ना सोउ ना जागू मैं,  
इस वक्त से बस भागू मैं।  
मैं जीना चाहूँ ,  
फिर भी घबराऊ,  
हर वक्त बस सोचती जाऊ,  
इस सोच में मैं यू दुबी,  
कि इस सोच से मैं दबी,  
कहाँ खुशियाँ हैंड, कहाँ हँसी हैं ?  
कहाँ मेरी प्यारी -प्यारी सखी है?  
कौनसा वो रास्ता  
जिससे है खुशियों का राबता?  
कहाँ मोह है, कहाँ प्रेम है ,  
क्या खुशियों के भी लेन- देन हैं?

अक्सर रहती मैं दुखी,  
हर वक्त बस धुन्ती रहती खुशी।  
मैं हूँ नहीं इतनी रूखी,  
पर सदा सुनाई दे नहीं सकती  
मीठी जैसी बाँसुरी।  
मैं हूँ एक पत्थर मुलायम,  
और टूट सकती हूँ जैसे कोई नियम।  
किसीको है पैसों की कमी,  
किसीको नहीं मिलती दो वक्त रोटी,  
किसीको है अंग की कमी,  
किसी के पास शिक्षा नहीं।  
किसी के पास घर नहीं,  
किसीको सता रही बीमारी है,  
किसीको सता रही गरीबी है,  
तो किसीके के माता पिता है नहीं।  
दुनिया में है इतने गम,  
की अब लगते हैं मेरे गम कम।  
अब जीना चाहूँ हर खुशी का मौसम,  
और बाँटना चाहूँ खुशियाँ हर दम।

## पेड़

पेड़ जीवन के रक्षक,  
करते मुसीबतों का निष्कर्ष,  
लकड़ी बारिश और छांव हमें देते ,  
जीवन को प्रफुल्ल बनाते,  
बदले में एक वादा चाहते,  
पेड़ लगाओ, पेड़ बचाओ ।

खाली जल का सेवन करते ,  
रंग बिरंगे फूल बरसाते,  
निस्वार्थ भाव से जीवन बचाते ,  
बदले में कुछ नहीं मांगते,  
खाली हमसे एक वादा चाहते,  
पेड़ लगाओ , पेड़ बचाओ ।

जलप्रलय से हमें बचाते,  
जीवन की आयु बढ़ाते,  
प्रदूषण का निर्वाण करते,  
शुद्ध वायु का आवरण करते,  
बदले में एक वादा चाहते ,  
पेड़ लगाओ , पेड़ बचाओ ।

जानवरों का सदन बनते ,  
कड़ी धूप से हमें बचाते,

जीवन संघर्ष की पुष्टि करते,  
विभिन्न पदार्थों का लाभ करवाते,  
बदले में एक वादा चाहते,  
पेड़ लगाओ, पेड़ बचाओ।

पुष्टि वाले फल खिलाते,  
शरीर की स्फूर्ति बढ़ाते,  
पूरी धरती को सजाते,  
पूरे जीवन को सवारते,  
बदले में एक वादा चाहते,  
पेड़ लगाओ, पेड़ बचाओ।

किसानों की फसल बढ़ाते,  
उनके जीने का साधन बनते,  
बारिश और धूप का तालमेल करते,  
सब जगह खुशाली फैलाते,  
बदले में एक वादा चाहते,  
पेड़ लगाओ, पेड़ बचाओ।

हम पेड़ों को काटकर हर पल,  
देश में मातम है बढ़ाते,  
पर यह सब जगह हरियाली फैलाते,  
देश को तबाह होने से बचाते,  
बदले में एक वादा चाहते,  
पेड़ लगाओ, पेड़ बचाओ।

पेड़ जीवन के प्रमुख भाती,

सबसे अच्छे, सच्चे साथी ,  
पर हम करके उनको नष्ट,  
खो देते जीवन का लक्ष्य,  
इसलिए वादे की पूर्ति करो ,  
पेड़ लगाओ पेड़ बचाओ ।

## संगीत संग कला

संगीत के सात स्वर  
और इंद्रधनुष के सात रंगों का मेल है ,  
एक एहसास है तो दूसरा भाव है ,  
यह एक ही पेड़ की दो डाल है,  
रंग है यह हमारे रंगोली के,  
राग है यह हमारे गीत का ,  
पुरखो का आशीर्वाद है  
यह हमारी संस्कृति की पहचान है ,  
यह वो अनजानी भाषा है जिससे हमे प्यार है ,  
एक एहसास है तो दूसरा भाव है,  
यह कला के भिन्न-भिन्न परिभाषा है।

## आई

काय सांगू आईचा बाबत,  
 बोलायला शब्द नाही,  
 जशी आईची माया ,  
 तेवढ्या समुद्रात जल नाही.  
 बालपणापासून प्रत्येक गोष्ट सिखवणारी ,  
 काय करायचं, काय नाही ते कळवणारी,  
 चूक झाली तर ओरडणारी,  
 पण उदास झाले तर पटकन मनवणारी,  
 स्वतःचे दुख लपवून आनंदाचे वातावरण पसरवणारी,  
 अशी असते आई.  
 आई बनवते निडर,  
 आई बनवते साहसी.  
 जशी खत्री वाचवते आम्हांना सूर्य प्रकाशापासून  
 तशीच आई वाचवते बाळांना आयुष्यातील प्रत्येक समस्यांपासून .  
 शरीरातील हृदयाचे जसं असतं मोल,  
 तशीच असते आई अनमोल.  
 ज्यांची नसते आई,  
 त्यांना माहित असते आईचे महत्त्व ,  
 आणि जो करीण आईच्या सम्मान,  
 तो बनतील प्रथम सर्वस्व.

## कोकणा चे रंग

कोकण हे रंगाने भरलेलं आहे  
लाल माती त्याची शान  
मोठे सयाद्रीचे डोंगर हे  
आहेत विशाल आणि महान

केसरी रंगाचे कजुचे बोंड  
सोबती केसरी अबोली फूले  
कैरी हि लागते आंबट गोड  
तरीही खातात सर्व मुले

पिवळे हापूस आंबे गोड  
पिवळे फनसाचे गरे  
दोन्ही पिकतात कोकणात  
खाल्या वर लागतात फार बरे

सहयाद्रीच्या डोंगरा वर  
घनदात जंगल हिरवी झाडं  
पण कोकणात सर्वात प्रथम  
आहे आपले कल्पवृक्ष माड

कोकणाच्या एका बाजूला  
आहे अरबी सागर निळा  
माश्यांचे स्रोत, खाणे भरपोट  
लाटांचा आवाज खुळा

## पणती

सगळं जग झोपलय,

पण ती,

ती अजून जागीच आहे.

आशेची जाणीव करून द्यायला.

सगळीकडे काळोख असला,

तरी कुठून तरी प्रकाश पडतोच.

आशेलाच नाही तर आत्मविश्वासाला देखील जाग करते.

कितीही वारा वाहुदे,

कितीही अडचणी येऊ देत,

हिम्मत दाटून बोलेल "मी खंबीर आहे, मी खंबीरच राहणार".

पणती.
